

Does Antananarivo need a new power transmission line?

The availability of a new power transmission line between the country's two main interconnected grids - Antananarivo (RIA) and Toamasina (RIT) - is a necessary condition for the integration of major hydropower developments on the drawing board such as Volobe (120 MW) and Sahofika (192 MW).

How many substations will be built in Ambohibary?

Besides the power line, the project also includes the construction of 4 substations (Tana Nord II, Ambohibary, Antsampanana and Toamasina), which will strengthen RIA and RIT and ensure power distribution in the rural areas crossed.

Why should Madagascar upgrade its hydropower?

By upgrading its hydropower, Madagascar will also reduce its dependence on fossil fuels, the import costs of which have a significant impact on the economy and JIRAMA's financial viability. The project will be implemented over 48 months, with the main works completed in Q4-2023.

Installées sur des toits, ces infrastructures amélioreront 1"énergie disponible sur le réseau interconnecté d"Antananarivo. A Madagascar, 1"énergéticien allemand Oursun Green ...

Mais ombre ou voile nuageux ralentissent la charge. Avec le panneau pliant 60W, c''est plus long, comptez 5 heures minimum. River 2 se décharge très doucement de 100% à 40 %. Ensuite la chute s''accélère. Néanmoins je suis très satisfait de mon achat. A 249 euros la station et le panneau 60w, le rapport qualité prix est imbattable.

With a 512 watt-hour capacity and 1,000-watt output, the DJI Power 500 all-scenario portable power station can serve as an essential backup power source during emergencies, especially for road ...

The availability of a new power transmission line between the country's two main interconnected grids - Antananarivo (RIA) and Toamasina (RIT) - is a necessary condition for ...
