

Will recycled glass become a standard part of AGC's production process?

The results indicate that the incorporation of recycled glass has potential to become a standard part of AGC's production process. Yun Luo, President of ROSI, stated, "This partnership with AGC Glass Europe is a major milestone in our mission to recycle and reuse valuable raw materials recycled from the photovoltaic industry."

What is AGC Glass Europe doing about sustainability?

Marc Foguene, Vice-President Sustainability at AGC Glass Europe, commented, "We are making a significant step toward our goals of cutting Scope 1, 2, and 3 emissions by 30% by 2030, achieving carbon neutrality by 2050, and reducing the environmental impact of our operations."

Can Photovoltaic Glass be recycled?

Photovoltaic glass is very transparent and clean, making it a valuable source of recycled material for our factories. However, it has a different composition from our standard products, meaning technical innovation is mandatory to allow for recycling within our processes.
