What are the major drivers of the lithium-ion battery market?

The major drivers of the market include rising disposable incomes, increasing population, numerous advantages offered by lithium-ion batteries, and the rising awareness amongst the consumers. What are the key trends of the market?

How big is the lithium-ion battery market in 2023?

from our company. According to the expert market research, lithium-ion battery market reached USD 42.90 billion in 2023, set to grow at 10.8% CAGR to USD 107.67 billion by 2032.

Which region will dominate the lithium-ion battery market in 2020?

Regionally, the Asia Pacific is estimated to dominate the global lithium-ion battery market in 2020. The regional growth is accredited to the presence of prominent original equipment manufacturers (OEMs) of batteries in the region. A lithium-ion battery (LIB) is a rechargeable battery having a high energy density.

What is the power capacity of a lithium ion battery?

The leading power capacities of the lithium-ion battery in the market are 0 to 3000mAh, 3000mAh to 10000mAh, 10000mAh to 60000mAh, and more than 60000mAh. How is the market segmented on the basis of application? The consumer electronics, electric vehicles, and energy storage among others are the various application segments in the market.

What are the major regions in the lithium market?

North America, Europe, the Asia Pacific, Latin America, and the Middle East and Africa are the leading regions in the market. What are the types of the product in the market? Lithium cobalt oxide, lithium iron phosphate, lithium nickel manganese cobalt, and lithium manganese oxide are the types of the product in the market.

The role of Burundi liquid-cooled energy storage lithium battery pack. 1. Introduction. The lithium-ion battery is evolving in the direction of high energy density, high safety, low cost, long life and waste recycling to meet development trends of technology and global economy [1]. Among them, high energy density is an important index in the development of lithium-ion batteries ...
