

Buy an outdoor power bank to charge at the company

Can I use a power bank to charge my laptop?

No problem, just use your power bank. The Goal Zero Venture 75 19200mAh Outdoor Portable Charger is perfect for outdoor living because it can power almost all of your small electrical devices (including laptops) and can be recharged using solar panels.

How much Mah is a waterproof power bank?

The massive 30,000 mAh is enough for up to 13 full charges of most smartphones and is so powerful that it can be used with laptops and portable gaming devices. If you need a waterproof power bank to use outdoors and last for multiple days at a time while still charging all your gadgets, this is 100% the one to get.

What additional features do outdoor power banks have?

As well as being impact and water-resistant, power banks specifically designed for the great outdoors often have LED lights, so they can be used as torches. This can be a useful additional feature, as can power banks with integrated charging cables - so you don't have to remember to bring separate cables with you.

Can solar panels charge a power bank?

Yes, most solar panels can trickle-charge a power bank over a period of several hours. Some solar panels can also be plugged directly into your device. To preserve your power bank's lifespan, unplug your device as soon as it is near full charge.

Should you buy a battery charger or a power bank?

For camping, a power bank is generally more suitable than a battery charger. While a battery charger can provide a quick boost for a smartphone on a day walk, a power bank can store more juice (measured in mAh) and is better suited for multiple devices and longer trips.

Why should you buy a solar charger power bank?
