

Canadian Small Uninterruptible Power Supply

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS) greatly benefits homes, offices and businesses. It ensures a continuous power supply, even during power outages or fluctuations. This is crucial for sensitive electronic devices such as computers, Wi-Fi routers, and point-of-sale (POS) equipment.

Why do I need a UPS power supply?

Plug in to a UPS to keep your PC or entertainment devices running when the power goes out. What is the purpose of a UPS power supply? A UPS (Uninterrupted Power Supply) is a backup battery that keeps the equipment plugged into it running in the event of a power outage.

Why do you need a 3-phase uninterruptible power supply (UPS)?

With its compact design and easy installation, a UPS is an essential investment for uninterrupted productivity and peace of mind. A 3-phase uninterruptible power supply (UPS) plays a vital role in data centers, edge computing environments, or commercial or industrial applications where uptime and data integrity are critical.
