

Canberra Energy Storage Cabin Price Comparison

Does solar energy storage make economic sense in Canberra?

Whether or not solar energy storage makes economic sense for your home in Canberra depends first and foremost on whether or not you already have a solar system, and if you do whether or not you have access to a Territory-supported solar feed-in tariff.

Does Canberra have battery storage?

Battery storage for residential solar energy is becoming increasingly popular in Australia - including in Canberra, ACT. If you're a Canberra resident looking to install a battery storage system for your home, what are the main things that you need to consider?

How much does a solar system cost in Canberra?

Solar Choice regularly publishes articles with indicative pricing for PV systems in Australia's capital cities (including Canberra) in our Solar Choice Price Index. Based on the price index data from March 2025, we can see that in Canberra a typical 6 kW solar system would cost \$5,420 on average after deducting the STC rebate and including GST.

What is the solar rebate in Canberra?

Here is a table showing the solar rebate in Canberra for solar system sizes. The ACT solar battery rebate scheme, widely known as Next Generation Energy Storage Program, was launched in 2016. This program provides a rebate of \$825/kW for battery storage and has supported the installation of more than 600 batteries across Canberra.

Is Canberra a good place for solar?

In the past two decades, Australia has solidified its role as a major advocate for solar energy. Particularly, Canberra in the ACT has witnessed a noticeable increase in solar panel installations, with more and more homeowners opting for solar options to cut down on their power bills. Is Canberra a good climate for solar?

Is solar power worth it in Canberra?

Yes, solar power is worth it in Canberra. The city is fairly sunny throughout the year, and if you consume most or all the power your system generates, you can get a good ROI from the system. The amount your solar system can save you depends on the system size and the percentage of power you can consume daily.
