

# Central Asia 40W Solar Street Light Factory

Where to buy solar street lights in China?

Anern is a leading wholesale solar street lights exporter in China. Our solar LED street lamps for sale have been providing perfect lighting solutions all over the world. OEM and ODM available. Click for Anern solar street light price now!

Who makes solar LED street lights?

Anern has a professional solar LED light factory to conduct quality production of our wholesale solar LED street lights. The composition of solar LED street lamps is of LED light source, solar panel, solar battery, controller, street light pole and auxiliary materials, etc. Solar LED street light uses the sun's energy as a light source.

How solar LED street light works?

Solar LED street light uses the sun's energy as a light source. During the day, under the control of the intelligent China solar controller, the solar energy panels will absorb the solar energy into electrical energy. When the smart controller detects light down to a specific value, control of the battery will power the LED light source.

How tall is a 60W solar street light?

For example 60W solar street light, the pole height is 6 meters and the interval is 15-18 meters; the pole height is 8 meters and the interval is 20-24 meters; the pole height is 12 meters and the interval is 32-36 meters.

Are solar street lights sustainable?

Solar street light is pollution-free, radiation-free and green, bringing environmentally sustainable advantages to the construction of municipal projects. The use of solar street lights can make streets and communities truly green and zero energy. What is the difference between all in one type and split type solar street lighting system?

What are the best design solar street lights?

Anern best-design solar street lights include three types of solar street lights: SLX, SLA, and SL. The adjustable bracket is the biggest highlight of the best design solar street lights. The angle of the bracket can be adjusted according to lighting needs.
