Andersons is an energy and contracting company providing electrical installations, photovoltaic solar and diesel power generation, air conditioning and building services throughout the Cook Islands and across the globe

The base of the Solarcontainer is a solid floor frame with the length and width of a 20f HC container. Mounted on this frame is the innovative PV rail system and the clever folding mechanism of the solar panels, which enable the transport dimensions and lifting points of a standard 20f high cube container, but still contain a maximum of highly efficient solar panels.

Set the folding container house horizontal on the flat surface, use ropes and steel hooks (total 4 parts) to hook up the folding container with crane. <style>.woocommerce-product-gallery{opacity:1 !important}</style>
