Without Solar Whiz Lights, these rooms may be illuminated using regular LED solutions. These lights may serve their purpose, but they lack the natural daylighting feel that our lights provide. Solar Whiz Lights may not provide real, direct sunlight to lower-storey or internal rooms, but they have been carefully designed to mimic the colour and warmth of daylight.

Our solar indoor lighting kits are low-voltage, reducing the risk of electrical hazards, making them suitable for both residential and commercial use. Plug-and-Play Installation. No electrician required. These DIY kits include solar panels, LED lights, batteries, and remote control or switch options.
