

# Huawei Saudi Arabia Outdoor Power Supply Factory

Will Huawei power Saudi Arabia's Red Sea project?

Huawei has developed the world's largest microgrid power station which delivers 1 billion kWh power supply per year. The new solution will play a significant role in Saudi Arabia's Red Sea project and provide several green electricity benefits.

Will Huawei's new energy solution help Saudi Arabia's Red Sea project?

The new solution will play a significant role in Saudi Arabia's Red Sea project and provide several green electricity benefits. On September 8th, the 2024 International Digital Energy Exhibition event was held where Huawei senior executive delivered keynotes.

Does Huawei offer fusion solar solutions for Saudi Arabia's Red Sea project?

Earlier we reported that Huawei is offering FusionSolar solutions for Saudi Arabia's Red Sea Project. The company collaborated with many partners to prepare this technology. It is finally ready with various capabilities that will boost power supply aspects.

Will Huawei microgrid power Red Sea project?

As per the details, the Huawei microgrid solution has been providing a 1 kWh green power supply to the Red Sea project since September 2023. In simple words, the microgrid solution not only lessened the power costs but also achieved a record of 10 cents per kWh. This is only 1/3rd of the old diesel power generation techs.

Will Saudi Arabia's industrial sector grow in 2020?

The NIDLP, for example, calls for Saudi Arabia's industrial sector to grow by 9% in the 2020s, up from the 6% growth figure recorded in the 2010s. It also calls for the country to rise from 23rd to 15th in the global industrial sector rankings (based on GDP).

Huawei Digital Power has built a solar-storage microgrid project in Saudi Arabia's Red Sea New City. It said that the plant has been operating smoothly for a year, delivering more than 1 TWh of green electricity. The ...
