India Mumbai Solar System Factory

Direct Sales

A Solar PV System doesn't require direct sunlight to be able to work, though direct sunlight gives the maximum efficiency. The system continues to work even during the overcast conditions but the efficiencies are going to be reduced to some extent. The efficiency generally reduces to the 70% during an overcast day.

Emmvee, which was founded in 1992, manufactures solar water heating systems and solar panels. It boasted a module manufacturing capacity of 3 gigawatts at the end of 2023, and it expects to expand its capacity to 5 gigawatts in 2024. The Bangalore-based company employs 650 workers in India and at its sales offices in Germany.
