

Large mobile energy storage vehicle in Mombasa Kenya

Does Kenya need battery energy storage?

A battery energy storage. The question of power storage has become critical as Kenya embraces e-mobility which requires reliable power supplies. The Energy and Petroleum ministry targets to mainstream power storage in its electricity master plan as the country's renewable energy generation expands.

Are mobile battery energy storage systems a viable alternative to diesel generators?

Mobile battery energy storage systems offer an alternative to diesel generators for temporary off-grid power. Alex Smith, co-founder and CTO of US-based provider Moxion Power looks at some of the technology's many applications and scopes out its future market development.

Can a 50MW wind power plant be built in Kenya?

Separately on September 9, 2019, the US Trade and Development Agency awarded a grant to Kenya's Craftskills Energy Limited for a feasibility study by an American firm, Delphos International for the development of a 50MW wind power plant with integrated battery storage capacity in Kenya.

What is mobile storage & how does it work?

Mobile storage offers a reliable, eco-friendly solution to replace noisy, disruptive diesel generators on film sets. Batteries can quietly power basecamps, lighting, catering, hair and makeup trailers and device charging. Their runtime can last for multi-day shoots, and they can easily adjust output to handle shifting energy needs.

Can mobile battery energy storage replace dirty generators?

More than 9,000 companies have pledged to halve global emissions by 2030. Fortunately, an innovative, cleaner solution is gaining traction to replace dirty generators: mobile battery energy storage systems (mobile BESS). Mobile BESS products provide mobile, temporary electricity wherever and whenever it's needed.

Why do utilities need mobile storage?

This flexible capacity allows utilities to earn revenue sooner from upgraded connections, rather than waiting years to recoup costs. By rapidly deploying mobile storage as needed, utilities can meet demand growth quickly while major grid upgrades progress.

Generators are available with or without sound-proof enclosures, fixed or mobile. Mantrac Power Systems Kenya has local branches in Nairobi, Kisumu and Mombasa. Systel Engineering Ltd.
