Where can I buy a motorhome battery in NZ?

Shop online for all your motorhome and RVF batteries. Visit Mr Positive NZ store for our full range of motorhome batteries and RV batteries. Deep cycle batteries and much more. 100% NZ owned and operated website.

Are lithium batteries good for RVs?

With a long list of benefits, including lasting longer than traditional lead-acid batteries, lithium batteries are ideal as house batteries for powering your RV's accessories while you're out exploring. Let's take a closer look at their benefits and what you need to get set up. Here is a brief overview of what we'll be covering in this guide.

What are motorhome batteries (RV batteries)?

Our range of Motorhome batteries (RV Batteries) are predominantly deep cycle battery variety. Deep cycle batteries are commonly found in house battery banks and are designed to provide current for long periods of time. Such as running appliances, inverters, motorhome lighting etc.

Do lithium RV batteries have overheating protection?

For extra safety, all our lithium batteries have overheating protection, just in case. Lithium RV batteries also include a built-in battery management system (BMS), which helps to optimise each cell within your battery and protect it from overcharging, over-discharging, getting too hot, and short-circuiting.

Which battery is best for a motorhome?

Let's get started! Traditionally, AGM batteries (lead-acid batteries) have been the battery of choice to power your motorhome. However, the new generation of Lithium-Iron Phosphate (LiFePO₄) batteries are starting to make their mark, offering real value from an output, weight, and capacity perspective.

Can I replace my RV battery with a lithium battery?

Yes, in most cases you can swap out your RV's AGM /lead-acid battery with a more economical, safer, and longer lasting lithium RV battery. You'll just need to ensure your RV has a charging profile for lithium batteries. For safe and professional installation of your RV battery, get in touch with the experts at your local RV Super Centre.

Over the years, we have done lithium battery upgrades on three of our four RVs. While installing lithium batteries (and solar) in our Class A motorhome was a much bigger, more complex job that required assistance from others. Up grading from lead acid to lithium batteries on our Class C motorhome and Casita camper were both straightforward DIY drop-in replacements.
