

Where can I buy super capacitors / ultracapacitors?

Pricing (USD) Filter the results in the table by unit price based on your quantity. Super Capacitors Supercapacitors / Ultracapacitors are available at Mouser Electronics. Mouser offers inventory, pricing, & datasheets for Super Capacitors Supercapacitors / Ultracapacitors.

What are the applications of kamcap supercapacitor?

5.5V high temperature 85° series typical applications: RAM, detonator, car recorder, smart meter, vacuum switch, digital camera, motor drive and so on. Kamcap supercapacitor is widely applied in different industries. We can also customize super capacitors with special parameters according to the needs of customers from different industries.

What is the high-temperature capacitor market?

The high-temperature capacitor market (i.e. for applications greater than 175 C) has been growing at a rate that exceeds traditional value growth in the capacitor industry since my firm, Paumanok Publications, first started covering this technically rewarding segment of the high-tech economy.

Are supercapacitors / ultracapacitor available at Mouser Electronics?

Tariff may apply to this part if shipping to the United States. Tariff may apply to this part if shipping to the United States. Tariff may apply to this part if shipping to the United States. Supercapacitors / Ultracapacitors are available at Mouser Electronics. Mouser offers inventory, pricing, & datasheets for Supercapacitors / Ultracapacitors.

What type of capacitor is used in high temperature applications?

The supply of high-temperature ceramic capacitors for applications above 175 C is highly fragmented, with many of the smaller, more specialized vendors of ceramic capacitors offering a variation on the high temperature ceramic capacitor. Tantalum - Certain types of tantalum capacitor designs are used in high temperature applications.

What is a high temperature capacitor dielectric?

Capacitor manufacturers are also exploring new high temperature dielectrics, especially in "self-healing" plastic film, which is preferred in mission critical circuit applications. Emerging capacitor dielectrics operating at these temperatures include silicon, solid aluminum and aluminum oxynitride type capacitors.
