The company is a Schneider Electric flagship brand, offering a wide range of products including ...

I was wondering about buying an uninterruptible power supply, so if the fuse goes, the PC will have power for long enough for me to get downstairs and flip the fuse back, or in case of need, power the PC down gracefully. Spent far too long researching this, and have gone round in circles. Main problem is that I don't trust any reviews I've seen.

An uninterruptible power supply (UPS) is a type of device that powers equipment, nearly instantaneously, in the event of grid power failure, protecting the equipment from damage.
