What is the Better Homes Ottawa heat pump incentive?

The City of Ottawa is directly supporting the installation of high quality heat pumps as a key technology in the transition to a zero-emission future. The Better Homes Ottawa Heat Pump Incentive is available to those coming through the Better Homes Ottawa Loan Program, and serves to lower the up-front cost of heat pumps.

Are home energy retrofits a win-win for Ottawa?

Home energy retrofits also create good, local, green jobs. It's a win-win for Ottawa. Homes and buildings produce almost half of the greenhouse gas emissions in Ottawa. To meet our target to reduce greenhouse gas emissions to zero by 2050, 98 per cent of existing homes must undergo a deep energy efficiency retrofit by 2040.

Are energy-efficient homes a win-win for Ottawa?

Energy-efficient homes are healthier, more comfortable and more affordable to live in. They are also more resilient and climate-friendly. Home energy retrofits also create good, local, green jobs. It's a win-win for Ottawa. Homes and buildings produce almost half of the greenhouse gas emissions in Ottawa.

What is the Better Homes Ottawa - loan program?

Through the Better Homes Ottawa - Loan Program homeowners can get a low-interest loan from the City to cover the cost of home energy efficiency improvements. An EnerGuide home evaluation is a great way to learn more about your home's current energy efficiency and make informed decisions on how best to improve it.

Does a heat pump work in Ottawa winters?

A 'cold-climate' heat pump is designed to work in Ottawa winters. Switching to a heat pump for heating and cooling will significantly reduce your greenhouse gas emissions. Another option is to get a dual fuel heat pump with gas back up. The heat pump works until it's below -12 degrees Celsius outside.

Average central air conditioner cost in Ottawa (including installation): \$3,500 - \$4,500. If you buy a new high-efficiency central A/C unit in Ottawa, you can expect to pay an average of \$4,000 to \$5,000. Exact pricing will depend on the model you choose as well as its size, your location, and the HVAC contractor you buy your unit from.
