

Ottawa Solar Fan Direct Sales

What is a solar fan?

A solar fan, or Direct Current (DC) fan, is a fan that can be plugged directly into a solar panel or a battery to provide ventilation anywhere. Snap-Fan's Brushless DC (BLDC) motors are unique in that they can be powered directly from a solar panel without any need for batteries or other expensive equipment.

How many iSolar ventilation fans did Bryan install?

Bryan installed twenty iSolar Ventilation fans at his Caerula Mar Resort in the Bahamas. iSolar's FLEX line for solar powered fans systems comes in a multitude of solar panel wattages and fan sizes resulting in a breadth of CFM outputs to suit the size of space you need to ventilate. They can be mounted vertically or horizontally.

What is solar HVLS ceiling fan?

SIPL SOLAR HVLS CEILING FAN is a new generation HVLS (High volume, Low speed) ceiling fan powered by solar energy, direct driven by top grade brushless motor, as a new revolutionary cost-effective solution for cooling, moisture proofing or ventilation!

What is a SIPL solar ceiling fan?

SIPL powerful large HVLS solar ceiling fan runs for cooling, air extracting and heat removing, as the most cost-effective solution to improve indoor air condition.

Where can a solar HVLS Fan be used?

The brand new high efficient solar HVLS fan is ideal for commercial, industrial, agricultural buildings and public locations such as Gymnasium, Church, Office Building, Libraries, big Malls, Canteens, Workshop, Stables and Dairy Cow House...

When do Solar Fans start & stop?

Fans running direct from a solar panel will start slowly in the morning, reach maximum speed at mid-day and slow to a stop in the evening. If air movement is needed during hours of little or no sunlight, a battery system can be added to keep your fans moving whenever they are needed.

Combining eco-friendly solar energy with rugged construction, SolAir offers your facility a powerful ventilation solution with virtually no maintenance or operating costs. Our SolAir ESF48 Direct Drive is a heavy gauge, 48-inch panel fan that ...
