

Portable power bank outdoor waterproof

How much Mah is a waterproof power bank?

The massive 30,000 mAh is enough for up to 13 full charges of most smartphones and is so powerful that it can be used with laptops and portable gaming devices. If you need a waterproof power bank to use outdoors and last for multiple days at a time while still charging all your gadgets, this is 100% the one to get.

What is the best waterproof power bank?

As you can see from the chart below, an IP68 would be the highest possible rating. However, most of the best waterproof power banks are rated to IP67, which is more than enough protection for rugged outdoor use.

Do you need a waterproof power bank?

If you spend a lot of time in the wilderness like I do, a waterproof power bank is even more necessary, especially when you're in humid environments or back and forth to the ocean on dive and snorkel trips. In a nutshell, because it's the best combination of capacity (mAh) and power transfer (W).

Are waterproof power banks rated IP 68?

The vast majority of waterproof power banks are going to be rated IP 66 or 67 but not 68. An underwater camera will be rated IP 68, but not a rugged powerbank. A few pieces of terminology before you delve into the review, just in case you are unfamiliar with the various measurements used to describe portable chargers.

Are Anker power banks waterproof?

Anker power banks are not waterproof and nor do they claim to be. The casing is made from waterproof materials but does not have a waterproof construction. Water can get in through the joints and the charger input, so it won't fare well if submerged. If you spill water on it or it gets a little bit wet in the rain though, you should be ok.

What is a good alternative to Techsmafter waterproof power bank?

This 15,000 mAh, 12W charger from myCharge is a good alternative to the Techsmafter waterproof power bank above if you don't need such a large capacity or the 45W power transfer.
