

Portable wifi power bank

What is a high capacity power bank & 4G mobile router?

Featured as a high capacity Power bank and 4G Mobile router, the product supports transparent data transmission, and is widely used in various scenarios such as business data transmission, image transmission, equipment status monitoring and WiFi coverage.

Do Wi-Fi routers need a power bank?

Thankfully, a few power banks (or mini UPS) for Wi-Fi routers keep them running, at least till the battery lasts. If you can make do with a power bank with average power backup, you can check out the 6,000mAh Talentcell Battery Pack. Like its counterpart above, this one has a small and lightweight build and does its job as advertised.

What is a connected power bank?

The Connected power bank is compact enough to sit right above your router when it's charging via the wall socket. Given its portable nature, you can carry it around easily to remote locations where you may want to power a router with a SIM card slot.

How much Mah does a connected power bank have?

The capacity is slightly lower at 7,800mAh and that won't really affect the overall runtime of the power bank. The Connected power bank is compact enough to sit right above your router when it's charging via the wall socket.

What is a portable WiFi hotspot?

This portable WiFi device offers extensive WiFi coverage and is equipped with both Ethernet and USB ports. The 4G WiFi hotspot, featuring a SIM card slot, delivers an efficient network and fast internet access for all your connectivity needs. The mobile hotspot device includes 1GB of data and is ready to use right out of the box.
