

Which roof tile has a solar panel?

The SOLAR FLAT-5XL ceramic tile, which has a solar panel on the large ceramic base of the roof tile, preserves the dimensions of the original ceramic tile and is still completely flat. The choice of materials for a roof is crucial to guarantee its durability, watertightness, energy efficiency and to protect the home.

What is a solar flat 5XL ceramic roof tile?

The SOLAR FLAT-5XL ceramic roof tile comes in two versions to adapt to each project's energy generation needs and available space. Find out more about: [Tejas Borja SOLAR product range](#) | Products that are perfectly integrated into flat tile roofs from Tejas Borja "Flat" range.

What are the benefits of a solar roof made from ceramic tiles?

Thanks to the integration of the solar panel into the tile, the tiles provide all the benefits of a roof made from ceramic tiles in terms of watertightness, without any risk of deterioration or oxidation. The perfect integration is completed with the installation of the roof or facade using FLAT-5XL tiles and other ceramic accessories.

Which Tejas Borja Solar tiles are compatible?

Tejas Borja's SOLAR range As another option in the Tejas Borja solar range, we offer a format compatible with our other flat ceramic tile model, the Flat-10. The SOLAR FLAT-10 tile is the same size as 5 ceramic tiles with the same model name and incorporates CIGS technology in its photovoltaic panel.

How to install solar tiles on a ventilated roof?

SOLAR tiles, both the Flat-5XL and Flat-10 formats, must always be installed on ventilated roofs, using a double batten or equivalent system. The integration of the tiles into the roof is achieved by finishing the roof with ceramic tiles and their corresponding special pieces.

Which solar tiles are best for solar panels?

The SOLAR FLAT-5XL MONOCRYSTALLINE tile provides excellent photovoltaic cell performance and high output in low light conditions, although they are sensitive to partial shade. However, the tiles provide greater peak power per square metre than those using other types of solar cells.
