

Why should you use a reliable UPS system in South Africa?

Reliable UPS systems can benefit South African businesses and industries in all sectors by safeguarding electrical equipment and ensuring business continuity. A UPS goes beyond simple battery backup--it is a power management device designed to keep your equipment running smoothly during power interruptions.

What is alternative power solutions in the East African region?

Our aspiration is to provide alternative power solutions in the East African Region. We provide unique specialized services tailored to meet the requirements of the region in terms of Solar, Wind Powered Equipment, Uninterruptible Power Supply (UPS) as well as Power Backup Systems.

Why is ups important in South Africa?

In a country where reliable power is essential for businesses, individuals, and critical infrastructure, a UPS is indispensable. South African businesses and industries in all sectors can benefit from reliable UPS systems to safeguard electrical equipment and ensure business continuity.

What is the range of UPS's supplied by PSS Distributors?

PSS Distributors supplies a full range of UPS's ranging from 720VA up to 2000MVA. Why choose us? We offer our clients many years of experience in power-related products and have more than 50 000 Uninterruptible Power Supply units in the market.

What voltage is used in South Africa?

For Southern Africa, this is typically 230VACsingle phase from 6 to 20 kVA like the Riello SDU and STW or 380 /400 VAC three-phase like the SENTRYUM and the MPS, which differs from regions like North America, where lower voltages like 110 VAC 1 phase and 208 VAC three phase are more common.

What is a three-phase UPS system?

A typical three-phase UPS system includes an input AC cable hard-wired to the input terminals or busbars(or SWIN as it is known in a Riello MPT,MHT,MHE,SENTRYUM,etc.). UPS systems also offer power surge protection and electrical noise filtering on both input and output sections.

Unipower is a professional uninterruptible power supply manufacturers, solar inverter manufacturers, solar battery manufacturers and supplier, we supply uninterruptible power ...

The ECO DTC Series is a mini tower UPS with DC/POE/USB output. As the battery backup Uninterruptible Power Supply (UPS) System, ECO DTC AC to DC converter uses lead acid battery to safegured the loads. With battery management system, the DC UPS uninterruptible power supply offers long backup time and service life.

Compu-Power, a subsidiary of iOCO Ltd, specializes in providing and servicing Uninterruptible Power Supplies, Inverters, Converters, and Charging Equipment. With 24 years of experience ...

We offer our clients many years of experience in power-related products and have more than 50 000 Uninterruptible Power Supply units in the market. Protection against mains ...

The U Smart Series is the home UPS with line interactive topology. Applied CPU integrated control technology, the U smart uninterrupted power supply provides prompt and accurate battery backup, power protection (using sine wave output), and surge protection when power outage, high or low voltage, transient or spike occurs.

We provide unique specialized services tailored to meet the requirements of the region in terms of Solar, Wind Powered Equipment, Uninterruptible Power Supply (UPS) as well as Power Backup Systems. We ...

The ECO 1825/1836 Series is a Mini UPS with 18W capacity and DC outputs. This AC to DC converter is designed for home. The product is equipped with multiple output ports, including USB, DC and POE, meeting the power supply ...

Mini UPS DC 24V/15V/12V with 14400mAh LiFePO4 batteries. Support USB/DC/POE output. Product Overview. The ECO Plus Series is an Mini UPS AC to DC current converter with ...

The HFS05-S Series is a line-interactive UPS with LiFePO4 battery built-in. The LCD rackmount Lithium-ion UPS provides battery backup (using simulated sine wave output) and surge protection for department servers, workgroup servers, workstations, network devices, and telecom installations without active PFC power supplies.

The SL Series mini tower UPS is a pure sine wave UPS, designed with Line-Interactive topology. The SL UPS provides seamless and reliable battery backup for a wide range of applications, including personal computers, small to midsize security DVRs, network devices, small telephone systems, and more.

To mitigate these risks, the business owners often consider two primary solutions: Uninterruptible Power Supply (UPS) systems and generators. This article explores the key differences between UPS and generators, helping businesses determine the best option for their needs. ... SVC Online UPS for Server Room in zero transition time. Lithium ...

The ECOPUTER P60 Series is an Mini UPS with LiFePO4 battery, providing reliable backup power for various electronic devices. Features a high-capacity built-in lithium battery, the mini UPS has longer durability and more safety.

The SLI series is a lithium uninterruptible power supply for home office and business. Designed with line interactive topology, SLI tower UPS provides battery backup, power protection (using pure sine wave output), and surge protection for corporate servers, department servers, storage appliances, network devices, and telecom installations requiring Active PFC power source ...

Rack Mount Uninterruptible Power Supply UPS 1kva-10kva. Selectable digital charging current from 1-12A, easy to match different appliances. Optional wide input voltage range 208/220/230/240VAC. Super high load efficiency, output power factor up to 1.0, and input power factor up to 0.99. High efficiency reach 95.5%, reduce loss of UPS

All SVC online Uninterrupted Power Supply UPS with double-conversion topology provide sine wave output. ... How to Calculate the Load Power of an Uninterruptible Power Supply. 2025-01-06 | SVC Power. How to Select UPS Power for Server Room? 2024-11-11 ...

The PTD Series UPS system has automatic bivolt input and offers extra protection and power for electronic equipment anywhere. Ideal for home network, audio & video, security, POS and telecom. The Bivolt UPS has multiple protection: against overload and short circuit in the output sockets, overload in the mains sockets, and battery overload.

SVC Launch of New Lithium Battery Uninterruptible Power Supply . The battery management system (BMS) is an integral part of any UPS with batteries. It plays a crucial role in protecting the batteries from overcharging and overdischarging, which can damage the batteries and reduce their efficiency. The BMS also monitors the temperature of the ...

The Bivolt UPS has 3 levels of protection: against overload and short circuit in the output sockets, overload in the mains sockets, and battery overload. With automatic bivolt input and 120V/220V output, the UPS with bivolt input adapts to the mains ...

Voltage Stabilizer, Voltage Regulator, AVR manufacturer / supplier in China, offering Factory Directly Lithium Battery Storage Solar System12.8V 50/100/150/200/280ah for Home Use, All in One Inverter Energy Lithium Ion ...

The ECO plus 418-2SP Series is the mini UPS for CCTV camera system, router, monitor, DVR, with multiple output interfaces of USB, DC and POE. Built-in 8800mah LiFePO4 battery, the min uninterruptible power supply can provide ...

The industrial UPS power supply generally refers to the uninterruptible power supply used in key equipment in the power, petrochemical, metallurgical and other industries. It generally uses phase-controlled rectification and high-frequency inverter technology. The most common mode of operation in 3-phase UPSs is called Online Double Conversion ...

A modular data center UPS (Uninterruptible Power Supply) is a power protection system designed for data centers that can be easily expanded or reconfigured based on the specific needs of the facility. ... SVC all-in-one modular data center integrates UPS power supply, distribution, cooling, access control, lighting, lightning protection ...

SVC mini UPS supports multiple output interfaces with DC/USB/POE, meeting most digital devices of home and office. Accept customization with flexible MOQ. ... Mini DC UPS Uninterruptible Power Supply 15W/18W/30W. ECO 412/ECO 418/ECO 418 PRO/ECO 430 PRO. Mini UPS Battery Backup with DC 9V/12V output for Wireless Router, Modem, LED Light, ...

We pride ourselves on almost two decades of expertise, and a clear design philosophy when manufacturing Uninterruptible Power Supplies (UPS), and Static Transfer Switches (STS) for ...

Our product ranges extend from small standalone 400 VA offline UPS units to large and unique, three-phase, high-efficiency UPS power plants of up to 8 x 800 kW monolithic ...

SVC lithium UPS is built-in high capacity LiFePO4 battery, designed for home and office digital devices. Accept customization with flexible MOQ. ... Support PC and NAS communication, Victor uninterruptible power supply provides continuous power to PC and NAS (Network Attached Storage) devices, preventing data loss or corruption. This is crucial ...

SVC mini UPS supports multiple output interfaces with DC/USB/POE, meeting most digital devices of home and office. Accept customization with flexible MOQ. ... Mini DC UPS Uninterruptible Power Supply 15W/18W/30W. Mini UPS Battery Backup Supply DC Output 18W. Company. About Us. News. Download. Blog. Products. Uninterruptible Power Supply. Inverter.
