

Spliced battery storage box

What is a splicable battery box?

The splicable battery box can help extend the battery life of your devices, turn into a DIY charging wonder, and it's easy for you to make a simple power bank with it. What's more, it can inspire your infinite creativity, and there are numerous interesting inventions waiting for you to unlock!

Why should you buy a splicable battery box?

Don't worry! This splicable battery box can transform your old batteries in a magnificent way, kicking off a journey of limitless creativity for their second use. You can easily create your own little inventions with it, saving energy and money at the same time. It's truly a brilliant design! Bid farewell to the hidden dangers of exposed batteries!

How to assemble a battery pack?

Let's start assembling a battery pack. Prepare the following materials: Assembly Goal: A 1S 3.7V 30Ah battery pack. Assembly Method: Use six 3.7V 5Ah batteries in parallel. DC 22.2V: Assemble a 6S1P 5Ah battery pack (requires 1 pack of 6 modular battery slots and 1 6S lithium battery protection board)

What voltage do I need to assemble a 6s1p battery pack?

DC 22.2V: Assemble a 6S1P 5Ah battery pack (requires 1 pack of 6 modular battery slots and 1 6S lithium battery protection board). DC 18.5V: Assemble a 5S1P 5Ah battery pack (requires 1 pack of 5 modular battery slots and 1 5S lithium battery protection board).

How many volts does a 4s1p battery pack take?

DC 14.8V: Assemble a 4S1P 5Ah battery pack (requires 1 pack of 4 modular battery slots and 1 4S lithium battery protection board). DC 11.1V: Assemble a 3S2P 10Ah battery pack (requires 1 pack of 6 modular battery slots and 1 3S lithium battery protection board).

How many volts does a 3s2p battery pack take?

DC 11.1V: Assemble a 3S2P 10Ah battery pack (requires 1 pack of 6 modular battery slots and 1 3S lithium battery protection board). DC 7.4V: Assemble a 2S3P 15Ah battery pack (requires 1 pack of 6 modular battery slots and 1 2S lithium battery protection board).
