

The company with the most energy storage projects in Vienna

Does Austria have a market for energy storage technologies?

A study 1 carried out by the University of Applied Sciences Technikum Wien, AEE INTEC, BEST and ENFOS presents the market development of energy storage technologies in Austria for the first time.

How much does a photovoltaic battery storage system cost in Austria?

The total inventory of photovoltaic battery storage systems in Austria therefore rose to 11,908 storage systems with a cumulative usable storage capacity of approx. 121 MWh. For 2020, a price of around EUR 914 per kWh of usable storage capacity excl. VAT was charged for PV storage systems installed as turnkey solutions.

Who built Haidach natural gas storage facility?

The Haidach natural gas storage facility was planned and constructed by RAG under its concession and project management. Since then, the company has been comprehensive technical storage operator.

Why did Rag build the Haidach natural gas storage facility?

With about 50,300 tons of crude oil, RAG was able to provide the raw material for high-quality further processing in domestic industry with about 12 % of Austria's domestic production. The Haidach natural gas storage facility was planned and constructed by RAG under its concession and project management.

How many tank water storage systems are there in Austria?

A total of 840 tank water storage systems in primary and secondary networks with a total storage volume of 191,150 m³ were surveyed in Austria. The five largest individual tank water storage systems have volumes of 50,000 m³; (Theiss), 34,500 m³; (Linz), 30,000 m³; (Salzburg), 20,000 m³; (Timelkam) and twice 5,500 m³; (Vienna).

Why is Rag regarded as a pioneer in hydrogen production & storage?

RAG is regarded as a pioneer in hydrogen production and storage thanks to its involvement in several research and demonstration projects, such as the water electrolysis plant in Pilsbach, Upper Austria, which has been in operation since 2015.

The Blyth-headquartered Windel Energy is a diverse renewable energy player with expertise in wind and solar energy projects, but also developing energy storage projects. Windel Energy focuses on battery energy storage systems (BESS), specifically on lithium-ion batteries. Their grid connection agreements accumulate to over 2.3GW of BESS sites.

RAG Austria AG is Austria's largest energy storage company, and one of Europe's leading gas storage facility operators. Our business focus is market driven storage, conversion and conditioning of energy in gaseous forms. The company has gas storage capacity of about 6.4 billion cubic metres (bn cu m) of natural gas, or
