

The role of uninterruptible power supply in the Democratic Republic of Congo

What is the electricity supply industry of the Democratic Republic of Congo?

August /The electricity supply industry of the Democratic Republic of Congo is reviewed,from the formation of the Societé National d'Electricité (SNEL)in 1970 until today. The DRC government established a national utility,because electricity is a key element in the socio -economic development of a country.

Could the Congo become an electricity exporter?

Almost all electricity generation today comes from hydropower and the Inga project has the potential to provide much more. If network constraints are addressed, Democratic Republic of the Congo could become an electricity exporter.

What is the main priority for the Democratic Republic of Congo's power sector?

The main priority for the Democratic Republic of Congo's power sector is to increase access to electricity. The Democratic Republic of Congo is a large country with 10 million households of which 1.6 million have access to electricity. This makes it the third largest population in the world without access to electricity.

How does the Democratic Republic of the Congo support the economy?

In the AC,Democratic Republic of the Congo supports an economy six-times larger than today's with only 35% more energy by diversifying its energy mixaway from one that is 95% dependent on bioenergy.

Why did the DRC establish a national utility?

The DRC government established a national utility,because electricity is a key element in the socio -economic development of a country. Due to the national monopoly of SNEL,hydropower plants could be constructed such as Inga1 and Inga2. They supply power to mining in the Katanga province,and to a steel company in Maluku,not far from Kinshasa.

Why does DRC have a high electricity demand?

All segments of electricity demand are severely constrained by supply. Most demand in the residential sector is unmet,partly because DRC has one of the largest deficits in electricity access in the world and high geographical disparities(see chapter 2 for information about access). So is industrial demand.
