

TÃ¼rkiye Small Uninterruptible Power Supply

What is an uninterruptible power supply?

An Uninterruptible Power Supply is a battery backup(usually lithium-ion) which provides power to connected devices when their power source fails. Power failure can be a simple power outage or some other factor that might cause voltage to drop below the acceptable level. Some UPS devices are also designed to protect against power surges.

Things to consider when choosing a uninterruptible power supply (UPS) Why you need a UPS (Uninterruptible Power Supply) As the name implies, an uninterruptible power supply is just that: uninterruptible. This means power surges, blackouts, brownouts, and any other power-related problems won't result in your UPS going offline.
