

Where will a solar farm be built in Chad?

Savannah Energy plans to build a 300MW solar farm and battery energy storage system (BESS) facility,called Centrale Solaire de Komé,in Komé,Chad. The clean energy generated by the facility will be delivered to Doba Oil Project,as well as the surrounding towns of Moundou and Doba,and the country's capital city,N'Djamena.

Will Savannah Energy build a solar farm in Chad?

British energy firm Savannah Energy plans to build a 300MW solar farm and battery energy storage system (BESS) facilitycalled Centrale Solaire de Komé in Chad",under an agreement with Chad's Ministry of Petroleum and Energy.

What is the largest energy project in Chad?

He said it is likely "the largest ever by a British company" in Chad. The energy company said the Centrale Solaire de Komé project will likely be approved in 2023. It is expected generate its first electricity in 2025. For the Centrales d'Energie Renouvelable de N'Djamena facility, the respective dates given were 2023-24 and 2025-26.

Does savannah energy have a deal with Chad?

Savannah Energy has signed a deal with the government of Chadto develop up to 400 MW of solar-plus-battery projects in the country. Reuters reported in January that London-based Savannah Energy paid \$626 million to Exxon Mobil and Petronas to acquire interests in Chad and neighboring Cameroon, including a 75% stake in the Doba Oil Project.

How many MW of solar will Chad have by 2021?

The International Renewable Energy Agency says Chad had 1 MWof grid-connected solar by the end of 2021. Savannah Energy has signed a deal with the government of Chad to develop up to 400 MW of solar-plus-battery projects in the country.

How much power will Chad generate?

The new project in Chad is expected to have a capacity of up to 200MW, which will increase Chad's existing installed generation capacity supplied to the city by 63% and boost Chad's total power generation capacity. The project is planned to be approved next year or in 2024, with the first power generation expected by 2026.

According to the managing director of the company, construction will be completed within 12 months and the solar parks will be linked to 10 MWh of storage capacity. According to Chad's government ...
